

Thyroid Cancer is now the #1 cancer in Young Women*

*CCS Cancer Stats

Thyroid Cancer Canada is a volunteer organization dedicated to supporting patients newly diagnosed and living with thyroid cancer.

Thyroid Cancer Canada supports patients with **free** programs, via:

- telephone
- email
- moderated online forum
- detailed website
- printed educational materials
- newsletter
- meeting, seminars, support assistance from an expert Medical Advisory Panel

There is a special singular bond that can only be formed with others that have endured the same disease. I believe we have all become 'kindred spirits' with one another through what is a life long journey.

Jim, PEI
