** This program is held in the Alli's Journey Comfort Room.*

Geoff Eaton, Executive Director of Young Adult Cancer Canada, is someone who gets it. As a “young adult cancer survivor”, Geoff understands first hand the difficulties of being young and having cancer. During his evening at Wellspring, Geoff will share some wisdom, laughs and unique insight into why having cancer as a young adult is different and the importance of connecting to other young survivors. Come on out and experience connecting first hand with Geoff and a great group of other young adults who “get it,” because, against all odds, they’ve been there too.

Geoff Eaton's bio:

Geoff Eaton is a two-time cancer survivor, the founder and executive director of Young Adult Cancer Canada. A recipient of Ernst & Young Entrepreneur of the Year, Queen's Golden Jubilee and Hope awards for his work on behalf of young adults with cancer, Geoff has shared his story of hope and inspiration with over 65,000 people from across Canada. Given less than a 2% chance of living, Geoff's story will renew your belief in the long shot and remind you that 1% is not 0%.
